

MAP Communications

Create an organizational culture of transparency & fairness with a reliable, confidential hotline for anonymous reporting of unethical or unsafe behavior & sensitive topics – a place where people feel safe to go when it comes to matters of ethics, compliance & safety.

A TRUSTED PARTNER IN COMPLIANCE & WHISTLEBLOWER HOTLINE

Give your employees a clear and comforting direction when fraud or other inappropriate behaviors happen. Offer them somewhere they feel their voice has importance and their concerns will be taken seriously.

A round-the-clock whistleblower hotline allows people to report misconduct anonymously and with confidence. It can also sometimes discourage fraudulent or inappropriate behavior altogether, simply by having the number to call.

HOW WE HELP

- ✓ **Hotline Coverage 24/7/365** ensures that not only is misconduct documented in a timely manner, it's accessible any hour of the day - regardless of when an incident occurs.
- ✓ **Sarbanes-Oxley Compliance** means that you can be sure that whether you are a public or private enterprise, the procedures that are legally required for reporting unethical or fraudulent behavior are covered, by us.
- ✓ **Trained 3rd-Party Professionals** are there to be helpful and reliable at all times, well-versed in documenting the frustrations and concerns of any employee coming forward, no matter their rank or experience within the organization.
- ✓ **Simple Implementation** ensures adoption. Revolutionize the way your company handles incidents. One phone number to call and report via a live intake specialist, or if preferred, utilizing the web-based portal to file a complaint. Both offer a secure, anonymous case journey - filing to resolution.
- ✓ **Detailed Documentation** allows every call to be logged to a secure online portal, accessible only to those with proper credentials. Comprehensive reporting can include everything from theft or sexual harassment to environmental issues and legal concerns.

Employee-owned, US-based MAP Communications has been serving organizations like yours around the globe since 1991.

Having a whistleblower hotline partner like MAP means you'll be able to feel confident that employees have somewhere to turn when sensitive incidents happen, and that they will feel safe speaking to a real person who knows what to do next.

Give your team the ability to ensure that misconduct is documented safely and securely and in a timely manner while performing a much-needed check on the ethical (and not so ethical) behaviors happening behind closed doors or in plain sight.
